

## CURRICULUM VITAE

Jillian M. Maloney

### I. EDUCATION

Scripps Institution of Oceanography, UCSD 2013 Ph.D. Earth Sciences  
*Fault segments and step-overs: Implications for geohazards and biohabitats*  
University of Southern California 2004 B. S. Geological Sciences

### II. POSITIONS AND RANKS HELD

San Diego State University	Assistant Professor	2015-present
Louisiana State University	Postdoctoral Researcher	2014-2015
Scripps Institution of Oceanography	Postdoctoral Researcher	2013-2014

### III. TEACHING

#### **GEOL305, Water & The Environment** (3 semester student eval. average = 4.69)

Course description: *Three unit General Education course for upper division undergraduates of all majors. The first half of the semester focuses on scientific concepts and theories related to water systems. We then use our understanding of the science to study local and global water issues. This class begins with the origin, distribution, and properties of water on earth. We cover hydrologic cycling and storage of water including processes of the atmosphere, rivers, lakes, oceans, glaciers, and groundwater. The second half of the semester focuses on human uses of water and problems caused by use of water resources. We cover global and local issues by examining case studies with a particular focus on California water landscape and management.*

#### **GEOL336, Sedimentology & Lithostratigraphy** (1 semester student eval. average = 4.69)

Course description: *Three unit course for undergraduates in the geological sciences major. Includes lecture, lab period, and field trips. Sedimentologic description and interpretation of the textures and structures of sediments and sedimentary rocks. Stratigraphic analysis of stratal succession, age relationships, and correlation on local and global scales. In this course students learn how to think like a geoscientist by making careful observations of sediments and sedimentary rocks and detailed interpretations about the environment in which they formed. We cover the properties of sediments, how sediment is transported and deposited, the structures and textures of sediment deposits, and the characteristics of sedimentary rocks formed in different environments.*

#### **GEOL580, Seismic Interpretation and 3D Visualization** (student evals. not yet available)

Course description: *Three unit course for graduate students and advanced undergraduates in the geological sciences major. Includes lecture and lab period. Computer-based seismic interpretation, mapping, and modeling in both 2D and 3D. Overview of basic seismic processing. Emphasis on industrial applications, both petroleum and shallow geotechnical.*

*This course covers the basics of seismic reflection data acquisition and processing with a more in depth focus on data interpretation. Students learn the main principals of sequence and seismic stratigraphy and gain hands on experience working with seismic reflection data.*

### IV. PROFESSIONAL GROWTH

#### A. Peer-reviewed Journal Articles

Keller, G., S.J. Bentley, I.Y. Georgiou, J. Maloney, M. Miner, K. Xu, 2016, River-plume sedimentation and  $^{210}\text{Pb}/^7\text{Be}$  seabed delivery on the Mississippi River delta front, *Geo-Marine Letters*, in press, doi: 10.1007/s00367-016-0476-0GMLE-D-16-00107.1

- Sievers, K.T., R.J. Barr, **J.M. Maloney**, N.W. Driscoll, T.W. Anderson, 2016, Impact of Habitat Structure on Fish Populations in Kelp Forests at a Seascape Scale, *Marine Ecology Progress Series*, in press, doi: 10.3354/meps11885.

#### D. Funded Research Grants

Co-PI, "Archaeological and Biological Assessment of Submerged Landforms off the Pacific Coast," Cooperative Agreement with the Bureau of Ocean Energy Management, Award M15AC00012, 2015-2019, Total project cost: \$1,171,131

PI, "Paleoseismic investigation of the Rose Canyon fault zone, San Diego, CA," Southern California Earthquake Center (SCEC), 2016, Total project cost: \$20,000

Co-PI, "Discovering Oregon's Lost Coast: A proposal to find and study submerged archaeological sites on the Pacific Continental Shelf," NOAA OER, 2016-2018, Total Project Cost: \$249,052

Co-PI, "Mass Wasting processes and Products of the Mississippi delta front: Data Synthesis and Observation," Cooperative Agreement with the Bureau of Ocean Energy Management, 2013-2017, Total Project cost: \$344,458

#### E. Workshops & Training

Military Ally Training, SDSU, October 21, 2016

Marine Mammal Observer Training, SIO/SDSU, July 1, 2016

Grants and Research Enterprise Writing Fellowship (GREW), SDSU, May-June 2015

Citizens Water Academy, SD County Water Authority, May-June 2015

Exxon-Mobil Short Course, *Multi-Disciplinary Subsurface Integration in Exploration and Production From Plates to Pores*, February 13-15, 2015

*SDSU Center for Teaching and Learning Workshops*: Building a better syllabus (1/14/15), Making the most of the first day of class (1/15/16), Getting Started with an Interactive Classroom (2/18/15), One Day in May - Scholarly Teaching: Using Evidence to Teach More Effectively and Support Student Learning (5/20/16), Formal and Informal Student Feedback (9/21/15), Scientific Teaching Workshop: Using Inclusivity and Alignment to Maximize Student Learning (10/14/15), Effective Presentations (2/3/16), International students in our classrooms: Supporting and learning from different cultures (10/17/16)

#### F. Professional Associations

Member, American Geophysical Union

Member, Geological Society of America

Member, Seismological Society of America

Member, CSU Council on Ocean Affairs, Science and Technology (COAST)

Member, SDSU Coastal and Marine Institute

Member, Joint Geophysical Group (JGG) for Joint Doctoral Program between SDSU and SIO

### V. . SERVICE

#### A. Service for the University

Search Committee, Department of Geological Sciences, SDSU 2016-2017

SDSU MInDSET (Maximizing Inclusion and Diversity in Science, Engineering, and Technology), Pilot Program, 2016

Invited Speaker, SDSURF PI Lecture Series, October 14, 2016

Increased GEOL305 class size from 40/year to 110/year. 2015-2016

Search Committee, Department of Geological Sciences, SDSU, 2015-2016

Volunteer, SDSU move-in day, August 2015

Invited Speaker, Discovery Slam, SDSU College of Sciences, April 6, 2015

#### B. Service for the Profession

Manuscript Reviewer, Society for Sedimentary Geology, 2016

Manuscript Reviewer, Journal of Marine Science and Engineering, 2016

Manuscript Reviewer, Estuarine, Coastal and Shelf Science, 2016  
Proposal Reviewer, COAST Grant Development Program, 2016

C. Service for the Community

Invited Speaker, Geology Seminar, CSU Fullerton, October 24, 2016

Invited Speaker, Geophysics Seminar, Scripps Institution of Oceanography, May 20, 2016

Take-Two, KPCC, Los Angeles Public Radio Interview on active research, "Scientists search for underwater migration routes off California coast, April 7, 2016:

<http://www.scpr.org/programs/take-two/2016/04/07/47811/scientists-search-for-underwater-migration-routes/>

SD Union Tribune article covering active research, "SDSU to search seafloor for artifacts of 'First Americans,' by Gary Robbins, April 1, 2016:

<http://www.sandiegouniontribune.com/news/2016/apr/01/SDSU-firstamericans-archaeology/?fbshare=2004113> and

<http://www.sandiegouniontribune.com/video/play/80178/>

Invited Speaker, Science career day at Castle Park High School, June 3, 2015
